### **How long will my house purchase take?**

How long it will take from your offer being accepted until you can move in to your house will depend on a number of factors. The average process takes between 8-12 weeks.

It can be quicker or slower, depending on the parties in the chain. For example, if you are a first time buyer, purchasing a new build property with a mortgage in principle, it could take 6 months. However, if you are buying a leasehold property that requires an extension of the lease, this can take significantly longer, between 6 and 12 months. In such a situation additional charges would apply.

### **\*Our fee assumes that:**

- This is a standard transaction and that no unforeseen matters arise including for example (but not limited to) a defect in title which requires remedying prior to completion or the preparation of additional documents ancillary to the main transaction
- The transaction is concluded in a timely manner and no unforeseen complication arise
- All parties to the transaction are co-operative and there is no unreasonable delay from third parties providing documentation
- No indemnity policies are required. Additional disbursements may apply if indemnity policies are required.
